

Tanzanian teens made it to the top 5 international finalists.....

For the second time in a row, and the second time since its first participation at the Teens In AI initiative in Tanzania, the winners from Dar Es Salaam make it to the global top 5 finalists.

Just like the year before: 2021, only 5 teams are selected to go to the final stage from 30+ projects coming from more than 30 teams and countries worldwide.

Other countries that made it to the top 5 finalists are USA, Tunisia, Romania, and Hong Kong.

This time around made up of 5 vibrant and enthusiastic young boys and girls, the team of 5 named "Heal Care Education" honoured Tanzania with this worldly recognition in the world of artificial intelligence. Team "Heal Care Education" developed a video game which solves poor student performance in school by advising students proper habits to engage in, so to maintain good health and to achieve high performance in schools.

This is a great achievement for teens from Tanzania and the country.

The IWD 2022 Global Demo Day is scheduled to take place on the 28th of April 2022, at 18h Tanzanian time.

We are all looking forward to see **Elke Elgin, Sheila Aaron, Joseph Madinda, Jason Makoba and Suleiman Abdallah** at the Global Demo Day on the 28th of April flying the Tanzanian flag up high.

We are grateful to our headline sponsor:
SMILE Communications Tanzania,

Our funder:
The U.S. Embassy in Tanzania

and our other sponsors and partners for making this IWD 2022 hackathon such a success.

See you on the 28th, **{{ contact.FIRSTNAME }}**, at the International Demo Day, where we will all be CHEERING for team Heal Care Education from Tanzania to bring the trophy back home!!!

You can watch the finalists present their project and answer the questions from the international panel of judges by clicking on the link below on the 28th April 2022 at 18h East African Time .
