{{ contact.FIRSTNAME }}, our **October Dar Es Salaam Hackathon** is almost here.......

And this time around, things have been improved for the better. UJUZI will host 5 different hackathons spread out in a year, in 5 regions of Tanzania starting with Dar Es Salaam in October 2022. UJUZI has also increased the age limit of participants to respond to the high demand of young people wanting to join our hacks beyond 18 years old.

Starting in October 2022, our hackathon will include young people not only from 12 years old to 18, but also up to 25 years old. The youths will solve the challenge of air pollution from cars in the city of Dar Es Salaam using digital technology and innovation.

And this is not all!!

Once the participants have finished the hackathon, UJUZI offers to the project teams the opportunity to pursue their ideas and solutions to market realization stage, including taking their tech or innovation solutions into the market, guidance to starting their own tech enterprise or mentorship to gaining employment in the tech industry. The following 8-week training program gives teams the needed follow up know how on prototyping their tech solutions, entrepreneurship, business and registration of enterprise, and link and networks to national and international stakeholders for experience and exchange.

With the newly established UJUZI Incubation Centre, our team of mentors and advisors are all ready and waiting to guide the young leaders and changemakers into becoming the next generation of tech entrepreneurs.

Registration for Dar Es Salaam October Hackathon is already underway, with the hackathon scheduled to take place in the month of October.

REGISTRATION DAR-ES-SALAAM OCTOBER 2022 HACKATHON

We are grateful and happy to welcome on board **T-MARC Tanzania** as our main partner for October 2022 Dar Es Salaam Hackathon. Committed to serving the health needs of Tanzania's underserved and most vulnerable populations, **T-MARC Tanzania** has been operating in Tanzania Mainland and Zanzibar since 2004. **T-MARC Tanzania** distributes Dume male condoms, Lady Pepeta female condoms and Flexi P oral contraceptives in

support of its HIV prevention and Reproductive Health/Family planning programs; and Flowless sanitary pads in support of its WASH initiatives. They are also distributors of children's diapers- Smiley and Harmony adult diapers.

The consequent hackathons In **Zanzibar** will take place in January 2023, **Mwanza** in March 2023, **Arusha** in June 2023 and **Dodoma** in August 2023. More information for the hackathons in these cities will follow soon.

Do you like our work and you would like to support us or partner with us or know someone who can partner with us? We are always on the lookout for partners and supporters? Write to us at *inquiries@ujuziforum.org*

UJUZI can offer the hackathons to youths only through the support of people like you.
